SUMMARY

- Software Developer and Mobile Application Developer at Kutumba Tech, specializing in cross-platform development using Flutter.
- Skilled in UI/UX design, with experience in rapid prototyping and real-time functionality integration.
- Proficient in Firebase, state management using BLoC and Provider, and collaborative development using agile methodologies.
- Passionate about leveraging technology to solve real-world problems, with an interest in data science and machine learning.

EXPERIENCE

Junior Software Developer & Mobile Developer   *Oct 2024 – Present*
Kutumba Tech Pvt. Ltd., Nepal

- Develop cross-platform mobile applications using Flutter with clean architecture.
- Implement REST API integration and Firebase services for real-time functionality.
- Optimize state management using BLoC and Provider patterns.
- Collaborate with cross-functional teams to deliver production-ready solutions.

Flutter Developer Intern   *Dec 2023 – Sep 2024*
Kutumba Tech Pvt. Ltd., Nepal

- Developed core features using Dart and Flutter framework.
- Designed responsive UI components, improving user engagement by 25%.
- Implemented Firebase authentication and cloud database solutions.
- Participated in code reviews, maintaining 98% code quality standards.

EDUCATION

Bachelor in Computer Applications (BCA)   *2020 – 2024*
Hetauda School of Management and Social Science
Relevant Coursework: Data Structures & Algorithms, Database Systems, OOP (Java/.NET), Web Development

TECHNICAL SKILLS

Languages: Dart, JavaScript, PHP, SQL, HTML5/CSS3
Frameworks: Flutter, React.js, Next.js, Tailwind CSS
Tools: Firebase, Git, Android Studio, VS Code
Practices: BLoC Pattern, REST APIs, Responsive Design

KEY PROJECTS

Streamly – Movie Platform   *2024*
- Developed ad-free streaming platform using Next.js and TMDB API.
- Implemented real-time content updates and user preference system.

- Link: https://movies.gambhirpoudel.com.np

Library Management System   *2024*
- Full-stack LMS development using PHP and MySQL.
- Features include course tracking and booking.
- Link: https://github.com/ZaddyAI/LMS

Nepflix – Entertainment App   *2024*
- Flutter-based movie discovery app with TMDB integration.
- Implemented dynamic content loading and caching mechanism.
- Link: https://github.com/ZaddyAI/Nepflix

ACTIVITIES

Food Waste Management System   *Dec 18–20, 2023*
Boston International College Hackathon
- Developed a data-driven web solution that reduced food waste tracking time by 40% through automated data collection.
- Implemented RESTful API using Node.js with PostgreSQL integration for real-time analytics.
- Designed dashboard interface for visualizing waste patterns and generating actionable insights.

Hackathon Participant – MediServ Project   *2023*
HSM IT Club
- Designed healthcare prototype with Figma/Canva.
- Won 2nd place in UI/UX design category.

EVENT COORDINATION

Event Coordinator – Acoustic Evening   *12 NOV 2022*
Hetauda School of Management and Social Science
- Coordinated logistics for the event, managing 200+ attendees with a focus on smooth operations and participant satisfaction.
- Led a team of volunteers to ensure the success of cultural performances and activities.

Event Coordinator – Cultural Events   *26 JAN 2023*
Hetauda School of Management and Social Science
- Managed logistics for 200+ attendee events with 95% participant satisfaction.
- Coordinated between 15+ student teams and faculty advisors.
